```

For instance, (Figure @ref(fig:uniquename)) will produce: (Figure 4.4) as the name of the R chunk is uniquename. We also need to add ‘fig’ in front of the chunk name so that R Markdown knows that this is a figure. We then include a ‘fig.cap’ in the R chunk that specifies a caption.

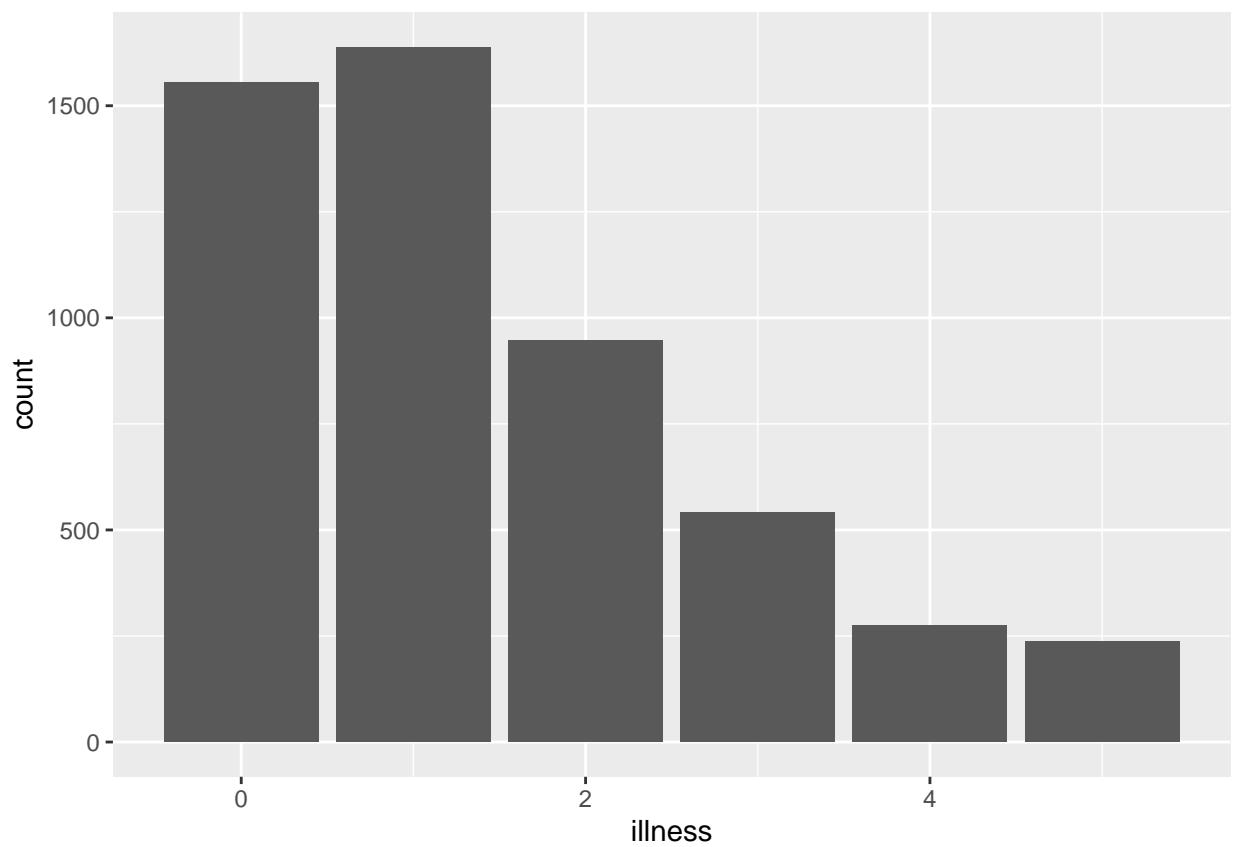

Figure 1: Number of illnesses in the past two weeks, based on the 1977–1978 Australian Health Survey
